

ADULT HIGH SCHOOL DIPLOMA

The Adult High School Diploma requires students to complete 160 credits for graduation, which include coursework in Natural Sciences, Social and Behavioral Sciences, Humanities, English, Mathematics, and a selection of electives. Based on information such as student's high school grades, test scores, work experience, and other multiple measures, the counselor may recommend placement at the level which meets the student's needs. Students are awarded a high school diploma upon completion of the course of study prescribed by the State of California and the Pasadena Area Community College District.

Program Outcomes

- Analyze, synthesize, and evaluate ideas orally and in writing.
- Demonstrate soft skills applicable in academic and workplace settings.
- Utilize study skill habits that will enable students to make the transition to college level coursework.
- Apply concepts learned in core subjects to prepare students to earn a high school diploma and transition to the community college and into the workplace.
