

# NOT-FOR-CREDIT EDUCATION

---

## PCC Extension

PCC Extension, part of the Economic and Workforce Development Division, consists of two distinct strands: Personal Enrichment and Professional Development. Enrichment options include classes, workshops, and activities for community members desiring to try out short-term courses prior to starting credit courses, to explore interests, and to stay current in an increasingly complex society. Professional Development courses and certificate programs provide employee trainings, re-skilling, and up-skilling to meet the specific needs of area employers. Both classroom and online formats are used. PCC Extension is fee-based, self-supporting, and open to the community, and is located at the Community Education Center.

For more information about PCC extension courses and programs, or to register, visit [pcclearn.org](http://pcclearn.org) (<http://pcclearn.org>) or call (626) 585-7608.

## Contract Education

Contract Education, part of the Economic and Workforce Development Division, makes available to employers, in-demand solutions needed by businesses to meet their workforce development needs through customized training programs (classroom/online) that support skill building and career advancement for employees. For information, visit <https://pasadena.edu/community/economic-workforce-development> (<https://pasadena.edu/community/economic-workforce-development/>) or call 626-585-7680.
